- Frontend: HTML5, CSS3, JavaScript (ES6+), React.js.
- Backend: Node.js, Express, Python, C#, .Net Core, REST APIs.
- Database: SQL, PostgreSQL, MongoDB.
- DevOps & Tools: Git, Docker, Jest (Testing), CI/CD Pipelines.

PROFESSIONAL EXPERIENCE

Software Developer Intern

Nov '25 - Present

Umuzi.org

Johannesburg

- Optimized team workflows by designing full-stack React components and APIs with **Node.js**, which significantly enhanced productivity outcomes
- Captured technical requirements for seamless data integration with legacy systems, delivering custom software solutions that **streamlined partner operations**
- Enhanced code efficiency and bolstered team productivity by executing thorough **peer reviews on GitHub**, ensuring adherence to style guides

Junior Tech Lead

Feb '25 - Present

Umuzi

Johannesburg

- Guided a cohort of junior developers over 12 months in mastering full-stack web development using **Node.js, MongoDB, and React**, fostering their technical abilities and enhancing overall team performance
- Resolved complex technical issues using Git, driving **improved team performance** throughout Agile sprint cycles
- Championed daily stand-ups and sprint retrospectives utilizing **Agile methodology and Kanban boards**, driving improved project efficiency and enhanced team collaboration

Remote Freelance Web Developer

Jun '24 - Present

Monsfi Marketing

Remote

- Transformed client engagement by delivering responsive websites that prioritized **mobile optimization and accessible design**, significantly boosting conversion rates and user interaction
- Amplified web performance by leveraging SEO strategies and Google Analytics, resulting in a **20% increase in conversion rates** and a **30% boost in traffic**

EDUCATION

Distance Learning Bachelor of Science Honours in Computing

Jan '26

UNISA (University of South Africa)

South Africa

- Focus:** Advanced Computer Science logic and Artificial Intelligence.

- **Relevant Modules:** Logic-Based Reasoning, Artificial Intelligence, Research Methodology.

BCom Information Systems

Jan '25

University of Cape Town

Sout Africa

- **Core Coursework:** Systems Analysis & Design, Database Management, Business Process Management.
- **Relevance:** Strong foundation in translating business requirements into technical system specifications.
