PROFESSIONAL SUMMARY

Software Engineer with 2 years of production experience in Python, SQL, and Backend Systems. Currently bridging the gap between technical implementation and quantitative analysis by pursuing a BEng in Robotics and BSc Honours in Computing simultaneously. Proficient in automating complex processes, managing databases, and applying engineering mathematics to solve business problems. Seeking to leverage this unique blend of software expertise and quantitative discipline within the Nedbank Home Loans Credit Policy team.

EDUCATION

Distance Learning Bachelor of Science Honours in Computing

Jan '26 - Present

UNISA (University of South Africa)

- Focus: Bridging computer science logic with advanced quantitative methods.
- Key Modules: Logic-Based Reasoning, Artificial Intelligence, Research Methodology.

Germany (Remote) Bachelor of Engineering (B.Eng.) in Robotics

Jan '28

IU International University of Applied Sciences

Germany (Remote)

- Focus: Engineering Mathematics, Control Systems, and Embedded Logic.
- Relevant Coursework: Advanced Mathematics (Calculus & Linear Algebra), Control Systems Engineering, Physics, Statistics, C/C++ Programming.

Cape Town Bachelor of Commerce in Information Systems

Dec '25

University of Cape Town (UCT)

Cape Town

- Focus: Systems Analysis, Database Design, Business Process Management.
- Achievement: Mentored Commerce Faculty students in problem-solving and logic.

TECHNICAL SKILLS

- Languages: Python (Pandas/NumPy), SQL (PostgreSQL), JavaScript, C++, MATLAB.
- Engineering & Math: Robotics Control Systems, Linear Algebra, Calculus, Physics, Embedded Systems.
- Development: Node.js, Git, Agile/Scrum, Test Driven Development (Jest).
- Data Tools: Excel (Advanced), Power BI (Learning), SAS (Learning).

PROFESSIONAL EXPERIENCE

Johannesburg Software Developer Intern

Nov '25 - Present

Umuzi.org

Johannesburg

- Transformed stakeholder business requirements into efficient technical solutions using **Agile methodology**, streamlining overall processes and enhancing operational effectiveness
- Developed and maintained robust backend systems using Node.js and PostgreSQL.
- Enhanced internal reporting accuracy by crafting **complex SQL queries** using Microsoft SQL Server to effectively extract and validate user data
- Optimized database performance and ensured data integrity across client-facing applications.

Johannesburg Junior Tech Lead

Feb '25 - Present

Umuzi

Johannesburg

- Elevated coding standards of a junior developer team in an Agile environment by utilizing **JavaScript, Docker, and PostgreSQL**, resulting in improved code quality
- Elevated coding quality by performing thorough code reviews in **Node.js** to enhance algorithmic efficiency and readability
- Mentored team members in technical problem-solving approaches, reducing debugging time and improving delivery speed.

Remote Freelance Developer & Data Analyst

Jun '24 - Nov '25

Monsfi Marketing

Remote

- Analyzed client engagement metrics to implement technical site optimizations, resulting in a 50% increase in organic traffic.
- Utilized Google Analytics to deliver **actionable insights** on user behavior, including conversion rates and engagement metrics

Johannesburg Web Application Development Learner

Mar '24 - Mar '25

Umuzi / BBD

Johannesburg

- Acquired full-stack proficiency in JavaScript, Express, and PostgreSQL, **enhancing technical capabilities in small to mid-sized projects**
- Implemented Test Driven Development (TDD) using Jest to ensure reliability of server-side logic.
- Accelerated team performance and enhanced product quality through the structured application of **daily stand-ups and sprint planning** using Trello and Kanban boards in an Agile environment

Cape Town Junior Business Analyst Intern

Jan '21 - Nov '21

University of Cape Town

Cape Town

- Elevated customer satisfaction by performing comprehensive research and data analysis using **Excel, Power BI, and SQL** to drive business process optimization
- Amplified funding opportunities by executing strategic modeling in Tableau, effectively communicating insights that improved **stakeholder engagement** and drove a 15% funding increase

ACHIEVEMENTS & LEADERSHIP

- Secretary General, Groote Schuur Residence (UCT): Managed budgets and coordinated large-scale student events.
- SAMSA Bursary Holder: Awarded for academic potential in Maritime Studies (2016–2019).
- Community Leadership: Coordinated daily operations for Simon's Town Soup Kitchen.
